DETAILED ACTION

Introduction

1. This communication is in response to Applicant's After-Final Redponse filed on 12/27/2004. No claims were amended, added, or cancelled. Claims 1-8 and 10-27 are pending.

Examiner's Reasons for Allowance

2. Claims 1-8, and 21-27 were allowed in the previous Office Action, dated 10/26/2004. The detailed reasons for allowance of these claims can be found on pages 7-10 of that Office Action.
3. Claims 10-12 and 16 were rejected in the previous Office Action, and their dependent Claims 13-15 were indicated as having allowable subject matter. In Applicant's response to the rejections of Claims 10-12 and 16, filed on 12/27/04, Applicants have perfected the priority of the present application back to September 20, 1998 based on the filing date of the priority document, European application No. 98203302.9.
4. The reference cited in the 35 U.S.C. §102(e) rejections of the claims, U.S. Patent No. 6,275,960 to Cappelletti et al. ("Cappelletti") has a U.S. filing date of December 16, 1998. This is subsequent to the priority filing date of the present application.

Art Unit: 2123

5. Moreover, the Cappelletti reference's priority filing date, due to European application No. 97830693, does not qualify as a priority date under 35 U.S.C. §102(e) because a European application is not an "international application" (PCT).
6. Examiner has withdrawn the rejections based on the Cappelletti reference due to the perfection of the priority claim of the present application. Claims 10-16 are therefore allowed.
